

The ORIGINAL slow-release Watering Bag

For new trees & shrubs

TREEGATOR® Original

For shade / deciduous trees
with branches at least 25"
off the ground or higher

TREEGATOR® Jr. Pro

For low-branch trees / shrubs
with branches at least 6"
off the ground or higher

TREEGATOR®

Made in
the USA 

Treegator® slow-release watering bags are durable, easy-to-use watering systems that provide deep water saturation directly to the root system of a newly planted tree, shrub or evergreen.

The TREEGATOR® Advantage

- Fill just 1 to 2 times per week for most plantings
- Installs in minutes with no tools required
- 100% water absorption with no run-off
- Promotes deep root growth
- Treegator® Original fits up to 8" caliper plantings
- Treegator® Jr. Pro fits up to 6" caliper plantings
(see reverse for additional specs)
